cat-nr.: KOLP209
It's music. it's Oi! It's the best Fucking Oi! you'll ever here. That my friend is a fact. Name a band better than us - you can't. We are the best and we are the wankers. ABOUT THE SONG "Fat Bob the Builder" "I'm Fat Bob and i'm a builder. it's an anthem for the working class. For builders - for workers and everyone who builds and works. Do you know what I'm saying??? The music was originally dun by the Professionals but we made it better. Also their lyrics were shit so we just binned them and made up some proper ones."

EVIL CONDUCT
king of kings CD/LP
cat-nr.: KOCD205/KOLP205
who could imagine that?? a 3rd album by evil conduct?? years ago nobody was thinking about it but this album throw them back on the map and better than ever. 14 Oi! '77 Punk Rock Killers recorded in the best studio the band ever joined. inc. coversongs of hank williams and jimmy cliff.

STAGE BOTTLES
mr. punch CD/LP
cat-nr.: KOCD203/KOLP203
a special band, a strong stand and we are happy to release their 5th album as we did the last one. Mr. Punch hits everyone who deserves apunishment, which is celebrated by the kids in the audience. This is what the Stage Bottles do with their songs as well. Again, with lots of melody, unmistakable saxsound and, of course, with provocative lyrics, which brought the band both its enemies as well as its following.

THE PORTERS
anywhere but home CD/LP

shellshocker of countryboogie'billy punky trash garage punk. All these tracks are first among equals.
Greatest Hits is a terrific album. When a band has the testicles to title its debut album Greatest Hits, you can guess that they're either gonna be pompous assholes or wise-cracking funsters. These guys are the latter, and they've hammered home an excellent first album....here I am,
poised to revise my "top ten albums of 2005" short list."

STAGE BOTTLES
new flag CD/LP
cat-nr.: KOCD181/KOLP181
Established back in autumn 1993 in Frankfurt / Germany. The most important thing for the band was always to play good Oi! Punk and have a lot of fun, party and excess, like for most of the bands worldwide. But on top it has been always really important for them to make "a sign", been antifascist - acting antifascist and have a clear stand against "millions of stupid people", like one of their songs said "sometimes antisocial, always antifascist". We are very proud to have them back on knockout records.

Punk anthems" very ironic lyrics and a big fuck off to church and society. inc. one coversong which is an punk all star project. Feat. Members of slime, molotow soda, canalterrior, razzia ect.
